

OLD MD. NEWSPAPER SOLD BY FOUNDERS

SALISBURY, Md., Aug. 21.—One of the largest sales of real estate and business interests which had occurred in this city recently took place yesterday when the Brewington Brothers Company, owners of the large office building and their interest in the *Wicomico News*, a weekly newspaper, was purchased by interested parties represented by Fred P. Adkins, Dale Adkins and Amos W. Woodcock. The company will operate a new corporation known as the News Publishing Company and conduct the *Wicomico* newspaper business, issuing a weekly paper which, it is understood, will be of independent political views and which will be enlarged in its scope as a publication.

Ex-Senator Marion M. Brewington several years ago, with his brother, Harry L. Brewington, established the *Wicomico News* and built the newspaper and printing business from a very small enterprise to one of the leading publications and largest printing establishments on the Eastern Shore. The newspaper has always been conducted as a Democratic organ and wielded a large influence in this section of Maryland.

SUPERFLUOUS HAIR WHY IT INCREASES

Hair growth is stimulated and its frequent removal is necessary when merely removed from the surface of the skin. The only logical and practical way to remove hair is to attack it under the skin. *Deftacril*, the original sanitary liquid, does this by absorption. Only genuine *Deftacril* has a money-back guarantee in each package. At retail counters in 50c, \$1 and \$3 sizes, or by mail from us in plain wrapper on receipt of price. Full book mailed in plain sealed envelope on request. *Deftacril*, 150th St. and Park Ave., New York.

One single flake of Kellogg's tells you the whole story of flavor and taste. That is why we protect you against imitations by putting my signature on each package. W. K. Kellogg

THE SWEETHEART OF THE CORN

EAT just one of Kellogg's Toasted Corn Flakes and you'll discover why so many hundreds of thousands of people will have no other.

First you get the flavor—the distinctive, inimitable Kellogg's flavor, with a lurking sweetness and a genuine goodness that tell of quality. Then you get the taste—a rich, real taste that gladdens the appetite and begins to satisfy hunger.

Then you notice the texture of the flake—it's a food; it has the body that proves it has been properly and carefully prepared.

AFTER you have eaten just this one flake, you find yourself with a pleasant longing for more; your nerves of taste are telling you that you have just eaten something that was not only good for you, but which you honestly enjoyed.

You will convince yourself that Kellogg's is a complete food, without cream and sugar. That is the reason why it is so very good with cream and a little sugar, why it is such a favorite with fresh or canned berries and fruits. The secret of all this is the Kellogg method.

AND a part of the credit is shared by the Kellogg wax-tite package, which brings you the flakes with their oven-freshness unchanged, so that you can almost detect the tempting aroma drifting from our oven doors.

You may as well have the choicest. Ask your grocer for Kellogg's Toasted Corn Flakes, with W. K. Kellogg's signature on the package.
